SONIC THE HEDGEHOG

MEGA MAN

PART FIVE

Sonic is the fastest, coolest hedgehog there is. He is free as the wind, and fights against the evil ambitions of Dr. Eggman!

Mega Man is a super figthing robot built by Dr. Light to protect his home and family from the evil forces of Dr. Wily.

PREVIOUSLY...

Drs. Eggman and Wily have joined forces and have rewritten reality with the Genesis Wave. Aboard their flying fortress, the Wily Egg, they now hold Dr. Light captive. All while their newest creations, the Roboticized Masters, gather the Chaos Emeralds for them!

After clearing up a brief misunderstanding of mistaken identities, Sonic teamed up with Mega Man to rescue citizens in Mega City from a Roboticized Master (a group of Sonic's friends turned into robotic killing mahines!). The blue heroes combined their powers and sucessfully stopped the mechanical menace who reverted back to Sonic's best bud, Miles "Tails" Prower.

Mega Man, accompanied by Sonic and friends, returned to Light Labs only to witness his creator, Dr. Thomas Light, being taken away by Bass and Metal Sonic! Unable to stop them in time, Tails worked fast to determine the mysterious location of the evil enforcers.

After getting a lock on the location of the evil doctors, Sonic, Mega Man, Proto Man, Tails, and Rush have entered the Skull Egg Zone.

New dangers and traps await our heroes in this chaotic new world, plus a rather unexpected reunion...

Dear 'My Sonic Universe,'
Shard is a really interesting character and a pretty cool Secret Freedom Fighter, and I have a few questions to ask about him:

SHARD!!!! Sorry, just got super excited because we LOVE that character! You shall have the usual!

1) Why does he walk around all the time with an arm cannon? I know that Shard can change his arm into anything he wants, so why not just give himself a "big hand", so to speak?

I see what you did there... It's true that Shard can morph his arm into many different things, but why just go with a hand when you can have a laser blaster?! Style points, my friend! In fact, we all know of a certain robot that is blue and cyan who also has a gun for a hand, and he may have just appeared in this VERY ISSUE!

2) I read Sonic Universe #50-- both the story about Shard and Metal Sonic and the one where he races the original Sonic. It's kind of strange that before, Shard spoke more like one of those Metal Sonics Eggman keeps sending out, and now he talks more like the "original" Blue Blur! Some new programming from Uncle Chuck, maybe? It makes sense-- no one would want to listen to robot-speak all day.

The early beginnings of Shard! Shard has the ability to develop his personality over the natural course of time just as we do!

3) If Shard's Power Gem gets damaged, (not completely smashed) is it possible for his data to be transferred to a new one?

That's a question that is just begging for an answer, as the internet has keenly made me aware! You're crafty, sir, but only time will tell the fate of Shard and all the other characters Drs. Eggman and Wily have distorted with their Genesis Wave.

4) Any chance we'll get to see some new upgrades for him in the future? :)

Upgrades would be sweet! Chilli-dog roaster? Electric tooth brush? (he definitely has teeth - check the issue!) The possibilities are endless! Whatever happens in the future, I'm sure it'll be epic!

Thanks,
Ian

Dear 'My Sonic Universe,'

Thanks, from Saad M.
